

"These guys know their sh*t"

"Highly recommend"

"We had a 250% increase in leads"

IT'S ABOUT DAMN TIME YOU SHOWED UP

We're trying to make growing businesses a whole lot easier, quicker, less stressful and more fun – for the millions of folks who run them every day.

Updated: 6th of May, 2026

Howdy.

It looks like you like reading.

Or stalking. Or maybe a little bit of both.

We have no idea how you got to this website.

(Thanks to the homies over Apple and their pixel-killing crusade on privacy)

Maybe you read about us online...

Maybe you saw one of our scandalous Facebook

aas.

Or maybe a friend told you about us.

If so, they should be given a box of soft-in-the-middle cookies.

Or a foot rub.

Anyhoo.

Your arrival is long overdue.

And now that you're here.

Let's not beat around the bush.

You're here, reading these pretty little words because you're hungry to grow your business.

Not hear our life story.

So here's the short version...

We got started in 2014 out of our Founder Sabri Suby's bedroom.

Since then, we've been kickin' ass and taking names.

Here's the stats:

- 💰 \$7.8b in reported client revenue
- 🔑 1,067 different industries and niches.
- ★ 5,000+ reviews (average of 4.7 stars)
- 🏠 71 millionaires created
- 👨‍👩‍👧 20× 8 figure clients created
- 🏢 Voted best place to work
- 🏆 #17 fastest-growing company in Australia (ranked by the AFR)
- 🚀 #1 fastest-growing agency (ranked by the AFR)

The numbers don't lie.

Go see for yourself.

And now, we're on a crusade to take over the world.

But not in an evil way.

Alright, but enough about us.

We wanna know about you.

And...

THAT BEGINS WITH THIS BITTON

SORRY, WE LIED.

This isn't really an about us page.

Because spending our time filling this page up with humble brags would be stupidly selfish.

So instead, we wanna make this page about YOU...

Listen, growing a business is hard.

We would liken it to, eating a mouthful of fire ants... while riding a motorbike blindfolded through the snow at 100km per hour, naked.

And that's especially true when you approach it like most entrepreneurs do.

Through trial and error.

By 'hoping and praying'.

By stumbling, and trying to figure it all out by themselves – for the very first time.

We call this "guesswork".

Also known as hell.

It's hot and muggy there.

And smells like cheese and feet.

And we'd rather rub scorpion chillies in our eyes than operate my business that way.

But like we said, this seriously isn't about us.

Which ultimately, leads us to you...

You're reading this right now because, in some way shape or form, your business isn't where you want it to be.

Or maybe you're already flying...and you simply want more.

More security.

More money.

More freedom.

More certainty.

More memories.

More time with your family.

More legroom.

More business class flights with your spouse to places that result in more sand between your toes.

Whatever it is for you...

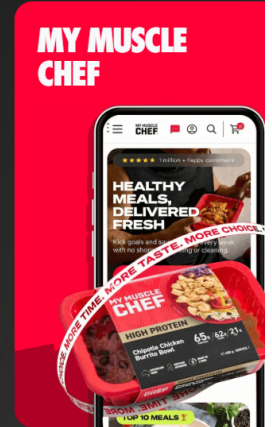

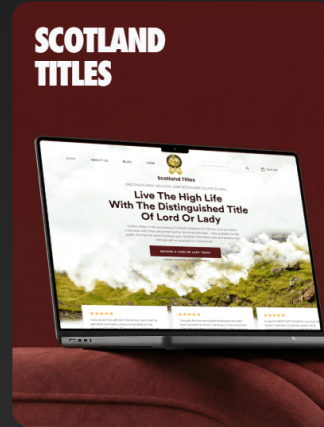

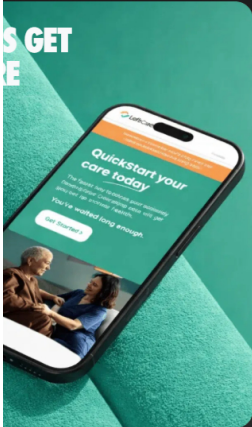

Let us put this question to you...

WHAT IF YOU JUST HIT THIS BUTTON

CASE STUDIES

BECOME OUR NEXT SUCCESS STORY

HIT THE DAMN BUTTON

SKEPTICISM ASIDE

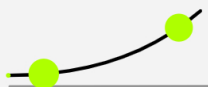

WHAT IF THERE'S A BETTER WAY...

Stress

Uncertainty

Guesswork

Certainty

Trial and error (going it alone)

What if you could remove the guesswork...

And end this nightmare.

What if you had a proven roadmap to get exactly

where you wanna go?

Well, that's the exact reason we created King Kong.

To solve this problem.

To murder it with a chainsaw.

You see, everything we do at King Kong is designed with a ruthless focus on results.

We're not interested in "kumbaya" inspiration.

We're not interested in sitting around, drinking herbal tea and circle-jerking over how many impressions or views we got.

We want you to succeed.

So you can take care of your loved ones.

So we can look good and get more clients.

So we can take care of our loved ones.

It's a virtuous cycle. A positive network effect. A flywheel.

And It's our way of making a difference in this batshit crazy world.

That means that every single strategy and tactic we deploy works.

Because we've tested it (and tested it again) in our own business.

And on hundreds of our client's businesses, too.

Anyways, if that isn't enough to 'move' you.

Nothing will know this...

If you keep doing what you are doing, you are going to keep getting what you are getting.

Period. End of story.

So...

HERE'S SOME FOOD FOR THOUGHT

DON'T SPEND YOUR WEEKENDS WORRYING ABOUT WORK ANYMORE...

Because life's too short.

Look, you're young (maybe you're old) and a little birdie told us...

You've spent countless hours online scouring the darkest corners of the internet...

Reading the works of dozens of so-called "gurus".

Downloading the latest ebooks, reading blogs, watching webinars, YouTube videos, doing courses...

Learning about...

SEO, meta-tags, keywords, Google analytics, Facebook ads, pixels, backlinks, opt-in pages, double opt-in lists, email sequences, remarketing and copywriting...

Tools to do this, tools to do that, files for this, pixels for that...

And then...

"Oh my gosh! I discovered another marketing guy who says..."

And on, and on, and on!

sighs

After all of this "education", the hours and hours of effort, self-sacrifice, money invested, dedication,

and tenacity....

Not to mention the never-ending employee issues
and the everyday challenges of life.

This causes your head to be so full of so much
mush...

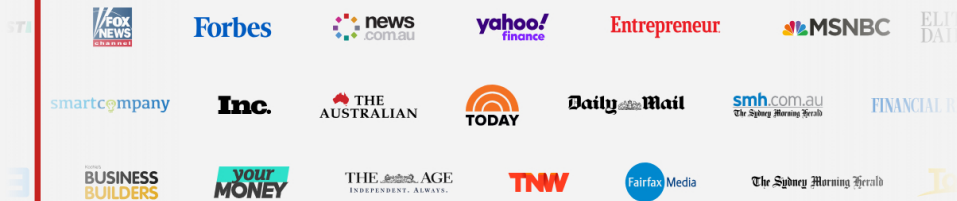

That you feel like your only options are to give up,
throw up, cry...or...

Chuck your MacBook out the window and
scream!...

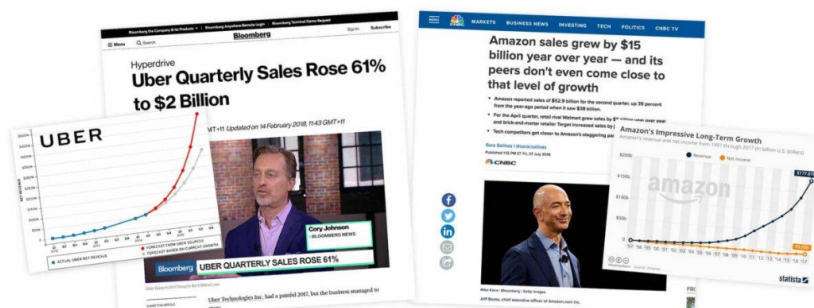

But, my question for you is this...

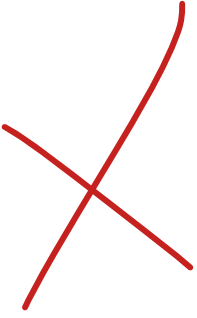

WHAT IF YOU JUST HIT THIS BUTTON

AS FEATURED IN

THE DIFFERENCE BETWEEN HYPER GROWTH AND SLOW GROWTH COMPANIES IS...

The skill sets they have to make it happen.

And the number one skill that fast-growth companies possess is...

The ability to consistently and predictably get new customers...

From Monday to Sunday. January to December.
24/7, 365.

In other words, they have a “selling system” that gets ‘em customer’s like clockwork.

Because customer acquisition is the engine that propels a company forward.

It’s the grease on the wheels.

And It’s also the antidote...

To not having to worry.

To not have your hair go fifty shades of grey, from all the stress about where the money will come from.

And It’s what took us from being a one-man army, cold-calling strangers from a rented bedroom...

To building the #17 fastest-growing company in the country (across all industries) as ranked by The Australian Financial Review.

That’s what having a “selling system” can do for you.

It’s your ticket to freedom...

Your ticket to not having to worry about where your next customer will come from.

Your ticket to sleeping like a Siberian brown bear at night.

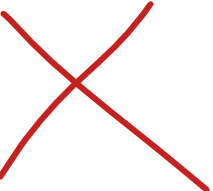

Your ticket to a better life.

And here’s the good bit...

We’ve developed a unique platform that gives you access to this ‘selling system’..

It’s unlike anything you’ve ever seen or heard about before.

And we’ve now used it in over 1067 different industries and niches...

To generate over \$7.8 billion in sales (that's billi with a B) for our clients.

Yep, we've cooked up the secret sauce for growing companies at breakneck speed.

And it all starts with our "platform".

WE'RE SOME COSSID

HERE'S SOME GOSSIP... EXCEPT IT'S REAL

"The agency's results-driven approach is very different to the one used by most marketing agencies. It is a scientific, numbers-driven way of winning business, which is giving King Kong an edge that other agencies may find difficult to compete with in the future."

The Sydney Morning Herald

WOO WOO, RA RA AND HOOPLA ASIDE...

We're just trying to make growing businesses a whole lot easier...

Quicker, less stressful and more fun – for the millions of folks who run them every day.

This is a movement that begins and ends with a community of renegades, demanding a better way.

One that extends its middle finger to traditional ad agencies...

And the conventional ways of growing a business, that are letting business owners down.

There are a lot of so-called "agencies" and "gurus"

roaming around the wild wild west that is the web,
today.

Most of these people are all bark, no bite. All
waffle, no syrup.

'Cause marketers lie, but numbers don't.

And we've got \$7.8 billion in reported client
revenue, in 1067 different industries and niches.

We're stone-cold killers.

And we go by all kinds of names...

Virtual vigilantes, mediocrity murderers, status
quo slaughterers, freedom fighters.

But whatever you call us...

It is our hope to shrink the amount of time it takes,
for you to go from first-time solo business
operator...

To fire-breathing, market-terrorising
entrepreneur...

But we really don't wanna keep talking about
ourselves.

In fact, we'd really like to be talking about you.

But, we can't do that until you hit one of the many
buttons you see on this page.

So, we're gonna attempt to "impress" you just one
last time.

HIT THE DAMN BUTTON ALREADY

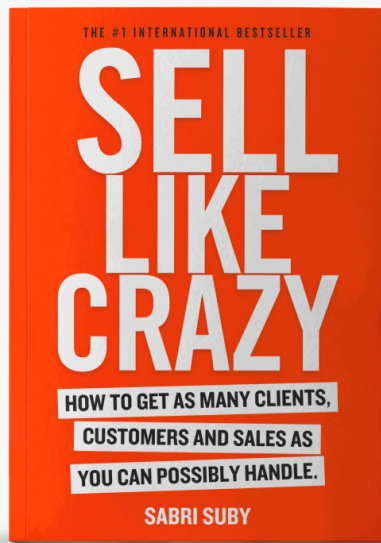

**WE GUARANTEE TO BEAT YOUR
